

ABSTRACT OF THE DISCLOSURE

To provide a resin composition for spacer useful for the formation of a pixel-patterned spacer on a substrate in a liquid crystal display device, a spacer using the composition, and a liquid crystal display device that can display high-quality images, a resin composition for spacer contains at least one resin selected from (1) an allyl-containing resin, (2) an allyl-and-hydroxyl-containing resin, and (3) a resin mixture of an allyl-containing resin and a hydroxyl-containing resin.
